The screenshot shows the OpenWeather API page in a web browser. The browser's address bar displays 'openweathermap.org/api'. The page features a dark navigation bar with the OpenWeather logo and a search bar. The main heading is 'Weather API', with a breadcrumb trail 'Home / Weather API'. The content area explains that users should 'sign up' to use the APIs and recommends the 'One Call API 3.0'. Below this, there are two columns: the left column describes the 'One Call API 3.0' with a 'Subscribe' button and a list of features; the right column is titled 'Pay as you call' and lists '1,000 API calls per day for free' and '0.0012 GBP per API call over the daily limit', with a 'Subscribe to One Call by Call' button.
